Query	A deep gray car, approximately 4.5 meters long, is parked on the right side of the road, facing away from me and positioned between a silver car and a black car. It is the second car on my north-northeast at about 10 meters away.		The second car, about 4.5 meters in length, is stationary on the right side of the road next to a house. It is facing away from me and situated around 20 meters away at a bearing of approximately 20 degrees north-northeast from my position. The car is obstructed by the first blue car on the right side of the road and is positioned in front of the blue car.		A solitary black truck measuring approximately 7 meters long is parked on the left side of the road, facing me and located about 10 degrees north-west of my position. The truck sits behind two smaller black cars.

Query	In the left lane, closest to me and positioned around 30 degrees northwest of my current location at a distance of approximately 10 meters is a black car. This first car is oriented in such a way that its back is facing me as it continues driving straight ahead.		A black car, approximately 4.5 meters long, is parked on the left rear side of the first car on the left side of the road, facing away from me. It is located about 30 meters north of me.		Positioned roughly to the north of my location is a gray car that is about 3.6 meters in length. It is the rightmost car at the front of the road, 60 meters away from me, and it is presently driving away from me with its rear end facing me.
